This is the proceedings of the Third Workshop on Computing: Theory and Practice, WCTP 2014 devoted to theoretical and practical approaches to computation. This workshop was organized by four top universities in Japan and the Philippines: Tokyo Institute of Technology, Osaka University, University of the Philippines – Diliman, and De La Salle University. The proceedings provides a view of the current movement in research in these two countries. The papers included in the proceedings focus on the two research areas: theoretical and practical aspects of computation.

**From reader reviews:**

**Ray Shippee:**

Do you have favorite book? Should you have, what is your favorite's book? Reserve is very important thing for us to learn everything in the world. Each guide has different aim or perhaps goal; it means that e-book has different type. Some people sense enjoy to spend their a chance to read a book. These are reading whatever they acquire because their hobby is actually reading a book. Why not the person who don't like reading through a book? Sometime, person feel need book once they found difficult problem or maybe exercise. Well, probably you will need this Theory and Practice of Computation:Proceedings of Workshop on Computation: Theory and Practice WCTP2014.

**Mary May:**

Have you spare time for any day? What do you do when you have a lot more or little spare time? Yes, you can choose the suitable activity with regard to spend your time. Any person spent their particular spare time to take a wander, shopping, or went to typically the Mall. How about open or even read a book entitled Theory and Practice of Computation:Proceedings of Workshop on Computation: Theory and Practice WCTP2014? Maybe it is being best activity for you. You realize beside you can spend your time with the favorite's book, you can better than before. Do you agree with the opinion or you have other opinion?

**Daniel Bryant:**

Now a day folks who Living in the era wherever everything reachable by talk with the internet and the resources inside can be true or not involve people to be aware of each data they get. How people have to be smart in receiving any information nowadays? Of course the answer then is reading a book. Studying a book can help folks out of this uncertainty Information specially this Theory and Practice of Computation:Proceedings of Workshop on Computation: Theory and Practice WCTP2014 book because this book offers you rich information and knowledge. Of course the details in this book hundred per-cent guarantees there is no doubt in it you may already know.

**Suzanne Palmer:**

Can you one of the book lovers? If yes, do you ever feeling doubt if you are in the book store? Aim to pick one book that you never know the inside because don't determine book by its protect may doesn't work the following is difficult job because you are afraid that the inside maybe not since fantastic as in the outside search likes. Maybe you answer may be Theory and Practice of Computation:Proceedings of Workshop on Computation: Theory and Practice WCTP2014 why because the wonderful cover that make you consider concerning the content will not disappoint you actually. The inside or content is usually fantastic as the outside or even cover. Your reading 6th sense will directly assist you to pick up this book.
