David Crane

Scott of the Antarctic: A Biography David Crane

Historian David Crane, with full access to the explorer's papers, diaries, and expedition records, gives us an illuminating portrait of Robert Falcon Scott that is more nuanced and balanced than any we have had before.

In reassessing Scott's life, Crane is able to provide a fresh perspective on not only the *Discovery* expedition of 1901—4 and the *Terra Nova* expedition of 1910—13, but his remarkable scientific achievements and the challenges of his tumultuous private life. Neither foolhardy dilettante, nor the last romantic champion of his age, Scott is presented as a man of indomitable courage and questionable judgment. The result is an absolutely compelling portrait of a complicated hero.

From the Trade Paperback edition.
