Biology and Management of the World Tarpon and Bonefish Fisheries (CRC Marine Biology Series)

Biology and Management of the World Tarpon and Bonefish Fisheries (CRC Marine Biology Series)

The core of a multibillion dollar sport fishing industry, tarpon and bonefish, two of the earth's oldest creatures, are experiencing obvious and precipitous population decline. Experienced anglers in the Florida Keys suggest a drop of approximately 90-95 percent for the bonefish population over the last 65 years. Despite the economic value of the industry and scientific value of these ancient fish, very little information is available about their movements and migrations, population dynamics, life histories, and reproductive habits.

With contributions from some of the world's leading experts, **Biology and Management of the World Tarpon and Bonefish Fisheries** synthesizes existing scientific literature, presents new perspectives, and introduces original scientific research to guide fishery management and conservation efforts for building sustainable fisheries. Divided into five sections, the book begins with an overview of the state of the world's fisheries for tarpon and bonefish. The second section reviews the biology and life history dynamics of these fish with contributions on conservation genetics, reproductive biology and early life development, as well as resolving gaps in evolutionary lineage and taxonomy. Covering population dynamics and resource ecology, the third section discusses migratory patterns and the use of tagging. Highlighting the lore and appeal of these fascinating sport fish, the book concludes by introducing a myriad of proposals designed to improve fishery sustainability by conducting census, enforcing catch-and-release programs, and supporting science-based management decision making.

Promoting a better understanding of the biological and fishery management issues that are paramount to the sustainable future of these valuable fishery resources, **Biology and Management of the World Tarpon and Bonefish Fisheries** provides a foundation for discussion and broad communication about the past present and future of these magnificent sport fish.

From reader reviews:

Mary Bolinger:

Now a day folks who Living in the era where everything reachable by talk with the internet and the resources in it can be true or not require people to be aware of each data they get. How a lot more to be smart in having any information nowadays? Of course the solution is reading a book. Examining a book can help persons out of this uncertainty Information especially this Biology and Management of the World Tarpon and Bonefish Fisheries (CRC Marine Biology Series) book since this book offers you rich info and knowledge. Of course the details in this book hundred percent guarantees there is no doubt in it you probably know this.

John Thornton:

Are you kind of occupied person, only have 10 or perhaps 15 minute in your day time to upgrading your mind talent or thinking skill possibly analytical thinking? Then you are receiving problem with the book as compared to can satisfy your short time to read it because this time you only find publication that need more time to be examine. Biology and Management of the World Tarpon and Bonefish Fisheries (CRC Marine Biology Series) can be your answer as it can be read by you actually who have those short spare time problems.

Jillian Harrington:

The book untitled Biology and Management of the World Tarpon and Bonefish Fisheries (CRC Marine Biology Series) contain a lot of information on that. The writer explains your girlfriend idea with easy method. The language is very straightforward all the people, so do definitely not worry, you can easy to read this. The book was authored by famous author. The author will take you in the new time of literary works. It is possible to read this book because you can please read on your smart phone, or model, so you can read the book throughout anywhere and anytime. In a situation you wish to purchase the e-book, you can start their official web-site in addition to order it. Have a nice learn.

Christopher Scoville:

Do you like reading a reserve? Confuse to looking for your selected book? Or your book had been rare? Why so many question for the book? But just about any people feel that they enjoy regarding reading. Some people likes looking at, not only science book but also novel and Biology and Management of the World Tarpon and Bonefish Fisheries (CRC Marine Biology Series) or others sources were given information for you. After you know how the fantastic a book, you feel desire to read more and more. Science book was created for teacher as well as students especially. Those ebooks are helping them to include their knowledge. In various other case, beside science e-book, any other book likes Biology and Management of the World Tarpon and Bonefish Fisheries (CRC Marine Biology Series) to make your spare time much more colorful. Many types of book like this one.
