**Le mythe de l'unité: Essai de métapsychologie jungienne (Psy-Passerelle) (French Edition)** Guy Krenger

Cet essai propose à la fois une présentation et une réinterprétation de la pensée de Carl Gustav Jung au sujet de la personnalité et de son développement. Les principaux concepts jungiens que sont les archétypes et l'inconscient collectif, les complexes et l'inconscient personnel, ainsi que le moi, le soi et l'individuation, sont exposés et soumis à une analyse philosophique. Ils sont ensuite clarifiés et réarrangés de manière systématique, dans le but de prolonger la vision jungienne et de la pousser dans ses conséquences logiques. S'inspirant également des développements amenés par les auteurs post-jungiens, Guy Krenger offre ici une interprétation radicale et novatrice de Jung qui célèbre le caractère fondamentalement multiple de la psyché plutôt que son unité et présente une vue alternative de ce qui constitue l'individualité et l'identité.
