## **Reservoir Surveillance** Jitendra Kikani

Generating economic producing opportunities in a new or an existing field is key to the success of an oil and gas company. These opportunities arise from a systematic assessment of key value drivers through relevant and appropriate measurements and by performing vigorous analysis that creates intelligence for the field. Interwoven in this evident and simple construct is the understanding of reservoir surveillance technologies. This book will help the reader not only clearly understand the broad spectrum of issues to consider for surveillance but also provide tools, techniques and templates to adapt to his or her specific needs. The theory behind some of the equipment as well as data analytics is illustrated with examples. It is essential reading for reservoir, production, operations engineers and earth scientists. Theoretical background and concepts discussed will be valuable for the university student to gain fluency in this integrated subject.

Your knowledge can inspire the mediocre, make them reading a publication.

#### **David Creason:**

As we know that book is vital thing to add our know-how for everything. By a reserve we can know everything we really wish for. A book is a pair of written, printed, illustrated or blank sheet. Every year has been exactly added. This guide Reservoir Surveillance was filled about science. Spend your free time to add your knowledge about your science competence. Some people has distinct feel when they reading a book. If you know how big benefit from a book, you can really feel enjoy to read a e-book. In the modern era like at this point, many ways to get book that you wanted.

#### **John Sherman:**

As a college student exactly feel bored to be able to reading. If their teacher inquired them to go to the library in order to make summary for some guide, they are complained. Just minor students that has reading's soul or real their leisure activity. They just do what the professor want, like asked to the library. They go to right now there but nothing reading very seriously. Any students feel that studying is not important, boring as well as can't see colorful photos on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this age, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore , this Reservoir Surveillance can make you experience more interested to read.
