"In North America alone there are now thirty Russian crime syndicates operating in at least seventeen U.S. cities, most notably New York, Miami, San Francisco, Los Angeles, and Denver. The Russians have already pulled off the largest jewelry heist and insurance Medicare frauds in American history, with a net haul exceeding \$1 billion. They have invaded North America's financial markets, orchestrating complex stock scams, allegedly laundering billions of dollars through the Bank of New York, and coolly infiltrating the business and real estate worlds.

"The Russians didn't come here to enjoy the American dream," New York state tax agent Roger Berger says glumly. "They came here to steal it." -From the Introduction From an award-winning investigative journalist comes an astonishing exposé of Russian organized crime, its growing power in the United States, and its terrifying implications for the rest of the world.

In the past decade, from Brighton Beach to Moscow, Toronto to Hong Kong, the Russian mob has become the world's fastest-growing criminal superpower. Trafficking in prostitutes, heroin, and missiles, the mafiya poses an enormous threat to global stability and safety. The black-market corruption of the Brezhnev era proved the perfect breeding ground for organized crime. Beginning in the 1970s, Soviet "migr"s--including a large number of felons and murderers the USSR was happy to get rid of--began arriving in the United States and quickly established themselves as a major criminal force in New York, Las Vegas, and elsewhere. But it was the breakup of the Soviet Union that made the

Russian mob what it is today. In a weakened, impoverished Russia, it quickly became the dominant power. And it has now spread to every corner of the United States, infiltrating its banks and brokerage firms--and American law enforcement is just waking up to this enormous problem. No journalist in the world knows more about the Russian mob in America than Robert Friedman. At great risk to himself, he has made connections with a number of top criminals who have gone on record about their activities for the first time. The result of his discoveries is a revelation: the Red Mafiya is everywhere. The implications--for law enforcement, the economy, foreign policy, for the American people themselves--are staggering."
