Clinical Evaluation of Psychotropic Drugs: Principles and Guidelines Robert F. Prien

This is a compendium on methodologies for the clinical evaluation of psychotropic drugs. It has three main sections: historical perspectives on drug development and guidelines; general principles of drug evaluations; and applications of these principles to specific disorders and patient groups. Its 25 chapters encompass all of the major psychotropic drug classes, presenting state-of-the-art methods for evaluating the clinical actions of centrally acting drugs.
