Neal Stephenson, J. Frederick George

Interface Neal Stephenson, J. Frederick George

From his triumphant debut with *Snow Crash* to the stunning success of his latest novel, *Quicksilver*, Neal Stephenson has quickly become the voice of a generation. In this now-classic thriller, he and fellow author J. Frederick George tell a shocking tale with an all-too plausible premise.

There's no way William A. Cozzano can lose the upcoming presidential election. He's a likable midwestern governor with one insidious advantage—an advantage provided by a shadowy group of backers. A biochip implanted in his head hardwires him to a computerized polling system. The mood of the electorate is channeled directly into his brain. Forget issues. Forget policy. Cozzano is more than the perfect candidate. He's a special effect.

“Complex, entertaining, frequently funny.”—*Publishers Weekly*

“Qualifies as the sleeper of the year, the rare kind of science-fiction thriller that evokes genuine laughter while simultaneously keeping the level of suspense cranked to the max.”—*San Diego Union-Tribune*

“A *Manchurian Candidate* for the computer age.” —*Seattle Weekly*

From the Trade Paperback edition.
