## Marxism and Feminism

Global events, from economic crisis to social unrest and militarization, disproportionately affect women. Yet around the world it is also women who are leading the struggle against oppression and exploitation. In light of renewed interest in Marxist theory among many women activists and academics, *Marxism and Feminism* presents a contemporary and accessible Marxist-feminist analysis on a host of issues. It reassesses previous debates and seeks to answer pressing questions of how we should understand the relationship between patriarchy and capitalism, and how we can envision a feminist project which emancipates both women and society. With contributions from both renowned scholars and new voices, *Marxism and Feminism* is set to become the foundational text for modern Marxist-feminist thought.
