**The Demise of a Rural Economy: From Subsistence to Capitalism in a Latin American Village** Stephen Gudeman

Bridging a gap between macro- and micro- viewpoints, the work shows the ways in which an economy is socially and historically determined. Subsistence is shown to be not only a form of agriculture but a determinant economic organisation and particular attention is paid to the problem of understanding patterns of distribution and the constitution of the surplus in the peasant economy.

First published in 1978.
