As a college student I exactly feel bored to help reading. If their teacher requested them to go to the library as well as to make a summary for some book, they are complained. Just small students that have reading's spirit or real their passion. They just do what the professor wants, like asked to the library. They go to generally there but nothing reading really. Any students feel that reading is not important, boring as well as can't see colorful pictures on there. Yeah, it is to be complicated. A book is very important in your case. As we know that on this era, many ways to get whatever we would like. Likewise words say, many ways to reach Chinese's country. Therefore this Life in Viking Times (Everyday History) can make you experience more interested to read.
