## **Contra Os Gramáticos (Portuguese Edition)** Sexto Empirico

Para um país com sérios problemas de abastecimento alimentar como o Brasil, com endêmica carência protéica em muitas regiões, a produção de proteína animal de boa qualidade a custos reduzidos surge como uma importante alternativa. Este livro traz importantes informações sobre o cultivo de peixes numa perspectiva que privilegia o desenvolvimento sustentado. Resultado de um trabalho iniciado em 1985, a obra busca maximizar o aproveitamento de um recurso natural em proveito do ser humano, objetivando conciliar a degradação ambiental e os seus reflexos sérios e comprometedores para a qualidade de vida.
