## The Legal Tender of Gender: Welfare, Law and the Regulation of Women's Poverty (Onati International Series in Law and Society)

Extensive welfare, law, and policy reforms characterized the making and unmaking of Keynesian states in the 20th century. This collection highlights the gendered nature of these regulatory shifts and, specifically, the roles played by women - as reformers, welfare workers, and welfare recipients - in the historical development of welfare states. The contributors are leading feminist socio-legal scholars from a range of disciplines in the US, Canada, and Israel. Collectively, their analyses of women, law, and poverty speak to long-standing and ongoing feminist concerns: the importance of historically informed research, the relevance of women's agency and resistance to the experience of inequality and injustice, the specificity of the experience of poor women and poor mothers, the implications of changes to social policy, and the possibilities for social change. Such analyses are particularly timely as the devastation of neo-liberalism becomes increasingly obvious. The current world crisis of capitalism is a defining moment for liberal states - a global catastrophe that concomitantly creates a window of opportunity for critical scholars and activists to reframe debates about social welfare, work, and equality, and to reinsert the discourse of social justice into the public consciousness and political agenda of liberal democracies.
