Radio Wave Propagation Fundamentals (Artech House Remote Sensing Library) Artem Saakian

Written for professional engineers and students who specialize in antenna, communication and radar systems, this authoritative book provides a thorough introduction to the basic principles of electromagnetic wave propagation of radio frequencies in real-world conditions. It serves as an invaluable daily reference for practitioners in the field and also as a complete, organized text on the subject. This comprehensive resource covers a wide range of essential topics, from the classification of radio waves, electromagnetic wave theory, and antennas for RF radio links...to the impact of the earth surface on the propagation of ground waves, atmospheric affects in radio wave propagation, and radio wave reception. This book is packed with over 1,105 time-saving equations and key discussions are supported with more than 190 illustrations. Moreover, each chapter includes problem sets to test the reader's mastery of the material.

From reader reviews:

Douglas Barlow:

The publication with title Radio Wave Propagation Fundamentals (Artech House Remote Sensing Library) includes a lot of information that you can learn it. You can get a lot of profit after read this book. This kind of book exist new information the information that exist in this publication represented the condition of the world at this point. That is important to you to be aware of how the improvement of the world. That book will bring you in new era of the syndication. You can read the e-book on your smart phone, so you can read it anywhere you want.

Louie Laforge:

As we know that book is essential thing to add our knowledge for everything. By a publication we can know everything we really wish for. A book is a group of written, printed, illustrated or blank sheet. Every year had been exactly added. This e-book Radio Wave Propagation Fundamentals (Artech House Remote Sensing Library) was filled about science. Spend your free time to add your knowledge about your science competence. Some people has various feel when they reading any book. If you know how big selling point of a book, you can sense enjoy to read a e-book. In the modern era like right now, many ways to get book that you just wanted.

Ronald Peyton:

Do you like reading a guide? Confuse to looking for your selected book? Or your book had been rare? Why so many question for the book? But any people feel that they enjoy with regard to reading. Some people likes reading through, not only science book but in addition novel and Radio Wave Propagation Fundamentals (Artech House Remote Sensing Library) or others sources were given knowledge for you. After you know how the truly amazing a book, you feel desire to read more and more. Science publication was created for teacher as well as students especially. Those books are helping them to bring their knowledge. In different case, beside science publication, any other book likes Radio Wave Propagation Fundamentals (Artech House Remote Sensing Library) to make your spare time far more colorful. Many types of book like this.

Theodore Rivas:

What is your hobby? Have you heard this question when you got students? We believe that that issue was given by teacher with their students. Many kinds of hobby, Every person has different hobby. Therefore you know that little person including reading or as studying become their hobby. You must know that reading is very important and also book as to be the point. Book is important thing to incorporate you knowledge, except your personal teacher or lecturer. You see good news or update with regards to something by book. Different categories of books that can you decide to try be your object. One of them are these claims Radio Wave Propagation Fundamentals (Artech House Remote Sensing Library).
