Working With the Law: 11 Truth Principles for Successful Living Raymond Holliwell

Science has defined a variety of natural laws that explain the physical world and how it changes. One such law states that for every action there is a reaction, and that for every motion there is corresponding counter-motion. Whether it's visible to the human eye or not, one thing is certain – movement and change will occur as a result. Having studied these principles, author Raymond Holliwell not only understood the universal physical applications, he also understood the spiritual and mental applications as well.
