Ion Channel Factsbook: Extracellular Ligand-Gated Channels: Volume 1

Ion Channel Factsbook: Extracellular Ligand-Gated Channels: Volume 1

How do you keep track of basic information on the proteins you work with? Where do you find details of their physicochemical properties, sequence information, gene organization? Are you tired of scanning review articles, primary papers and databases to locate that elusive fact?

The Academic Press FactsBook series will satisfy scientists and clinical researchers suffering from information overload. Each volume provides a catalogue of the essential properties of families of molecules. Gene organization, sequence information, physicochemical properties, and biological activity are presented using a common, easy to follow format. Taken together they compile everything you wanted to know about proteins but were too busy to look for.

In a set of four inter-related volumes, **The Ion Channel FactsBook** provides a comprehensive framework of facts about channel molecules central to electrical signalling phenomena in living cells.

The first volume is devoted to Extracellular Ligand-Gated Integral Receptor-Channel Families including those molecular complexes activated by:

5-Hydroxytryptamine, ATP, Glutamate, Acetylcholine, GABA, Glycine.

Key Features

- * Nomenclature
- * Expression
- * Sequence analyses
- * Structure and function
- * Electrophysiology
- * Pharmacology
- * Information retrieval

From reader reviews:

Betty Adkins:

Inside other case, little individuals like to read book Ion Channel Factsbook: Extracellular Ligand-Gated Channels: Volume 1. You can choose the best book if you want reading a book. Given that we know about how is important a book Ion Channel Factsbook: Extracellular Ligand-Gated Channels: Volume 1. You can add knowledge and of course you can around the world by a book. Absolutely right, since from book you can know everything! From your country till foreign or abroad you will be known. About simple matter until wonderful thing it is possible to know that. In this era, we could open a book or perhaps searching by internet gadget. It is called e-book. You should use it when you feel weary to go to the library. Let's read.

Wilma Shay:

In this 21st millennium, people become competitive in each and every way. By being competitive today, people have do something to make these people survives, being in the middle of the crowded place and notice by surrounding. One thing that sometimes many people have underestimated this for a while is reading. Yes, by reading a publication your ability to survive improve then having chance to endure than other is high. For yourself who want to start reading a new book, we give you this specific Ion Channel Factsbook: Extracellular Ligand-Gated Channels: Volume 1 book as basic and daily reading publication. Why, because this book is more than just a book.

Gary Ritchie:

Many people spending their time frame by playing outside having friends, fun activity having family or just watching TV all day long. You can have new activity to pay your whole day by examining a book. Ugh, think reading a book can really hard because you have to use the book everywhere? It okay you can have the e-book, taking everywhere you want in your Smartphone. Like Ion Channel Factsbook: Extracellular Ligand-Gated Channels: Volume 1 which is getting the e-book version. So , try out this book? Let's find.

Jillian Harrington:

As a pupil exactly feel bored for you to reading. If their teacher questioned them to go to the library or even make summary for some reserve, they are complained. Just tiny students that has reading's heart or real their leisure activity. They just do what the professor want, like asked to go to the library. They go to generally there but nothing reading significantly. Any students feel that reading through is not important, boring as well as can't see colorful pics on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this period of time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore this Ion Channel Factsbook: Extracellular Ligand-Gated Channels: Volume 1 can make you feel more interested to read.
