Forests: A Naturalist's Guide to Woodland Trees

Laurence C. Walker

Forests: A Naturalist's Guide to Woodland Trees Laurence C. Walker

First published in 1990, *Forests* explores the ecological, economic, and human influences on over thirty significant types of woodlands. Laurence Walker focuses especially on the effects of site factors—climate, physiography, biology, and soils—upon the growth of various kinds of trees. Projects for amateur naturalists, reading lists, and a glossary make this the perfect introduction for general readers.
