## What is Calculus?:From Simple Algebra to Deep Analysis R Michael Range

This unique book provides a new and well-motivated introduction to calculus and analysis, historically significant fundamental areas of mathematics that are widely used in many disciplines. It begins with familiar elementary high school geometry and algebra, and develops important concepts such as tangents and derivatives without using any advanced tools based on limits and infinite processes that dominate the traditional introductions to the subject. This simple algebraic method is a modern version of an idea that goes back to René Descartes and that has been largely forgotten. Moving beyond algebra, the need for new analytic concepts based on completeness, continuity, and limits becomes clearly visible to the reader while investigating exponential functions.

The author carefully develops the necessary foundations while minimizing the use of technical language. He expertly guides the reader to deep fundamental analysis results, including completeness, key differential equations, definite integrals, Taylor series for standard functions, and the Euler identity. This pioneering book takes the sophisticated reader from simple familiar algebra to the heart of analysis. Furthermore, it should be of interest as a source of new ideas and as supplementary reading for high school teachers, and for students and instructors of calculus and analysis.

### **From reader reviews:**

#### **Carlos Garcia:**

Book is actually written, printed, or highlighted for everything. You can realize everything you want by a guide. Book has a different type. As you may know that book is important matter to bring us around the world. Adjacent to that you can your reading ability was fluently. A publication What is Calculus?:From Simple Algebra to Deep Analysis will make you to become smarter. You can feel more confidence if you can know about almost everything. But some of you think in which open or reading a book make you bored. It isn't make you fun. Why they could be thought like that? Have you in search of best book or suited book with you?

#### **Leon Santiago:**

Book is to be different for every grade. Book for children until eventually adult are different content. As we know that book is very important normally. The book What is Calculus?:From Simple Algebra to Deep Analysis had been making you to know about other information and of course you can take more information. It is extremely advantages for you. The publication What is Calculus?:From Simple Algebra to Deep Analysis is not only giving you a lot more new information but also for being your friend when you truly feel bored. You can spend your own personal spend time to read your book. Try to make relationship together with the book What is Calculus?:From Simple Algebra to Deep Analysis. You never experience lose out for everything in case you read some books.

#### **Charles Bock:**

The particular book What is Calculus?:From Simple Algebra to Deep Analysis has a lot of information on it. So when you check out this book you can get a lot of help. The book was compiled by the very famous author. Mcdougal makes some research ahead of write this book. This kind of book very easy to read you can obtain the point easily after perusing this book.

#### **Sue Eldred:**

This What is Calculus?:From Simple Algebra to Deep Analysis is great book for you because the content which can be full of information for you who also always deal with world and also have to make decision every minute. That book reveal it facts accurately using great manage word or we can say no rambling sentences within it. So if you are read the item hurriedly you can have whole info in it. Doesn't mean it only will give you straight forward sentences but hard core information with splendid delivering sentences. Having What is Calculus?:From Simple Algebra to Deep Analysis in your hand like having the world in your arm, details in it is not ridiculous a single. We can say that no guide that offer you world within ten or fifteen tiny right but this e-book already do that. So , this is good reading book. Hey Mr. and Mrs. occupied do you still doubt this?
