## Choriocarcinoma: Transactions of a Conference of the International Union against Cancer (UICC Monograph Series)

The International Union Against Cancer knowledge of what to do or how to do it; they convened a Conference on the to identify the nature of, and reason for, Chemotherapy of Choriocarcinoma in the successful chemotherapeutic results in Baguio City, Philippines to focus attention on trophoblastic neoplasia (whether this be on the therapy of neoplasms of the specificity of drugs, the nature of the trophoblast, allogenic graft or characteristics of the Cures of cancer are of concern to every specific cells); and to determine the cause. The oldest therapy of cancer likely suffers from failures (whether it be advanced consisted of herbs, potions and incantations and long-standing disease, inappropriate treatments. Cures may first have been achieved dosage regimens, or inherent resistance of in the murky annals of early civilization the tumors treated). If this first chemotherapy with local chemical cautery. The first therapeutically curable cancer can serve successes of surgery are lost in antiquity as a model for the chemotherapy of other and probably were amputations. Radioactive autochthonous tumors, the therapeutic treatment therapy was first used for cure in the principles may be useful for extrapolation early years of the 20th century. Curable to other tumors. Such unique characteristics of the first cancer with drugs is a recent technique as the technique of dosing and the phenomenon: choriocarcinoma in 1956.
