Mushrooms: A comprehensive guide to mushroom identification Roger Phillips

The culmination of over thirty years' work, this authoritative and superbly illustrated reference work is packed with the most up-to-date information and original photographs. Set to become the essential illustrated mycological encyclopedia for the next 25 years, this book is also clear, user friendly and will appeal to a wide range of readers.

Unsurpassed in both illustrative and descriptive detail, *Mushrooms* contains over 1,250 photographs, often showing the specimens in various stages of growth, and including all the latest botanical and common names as well as current ecological information on endangered species.

Having sold more than 750,000 copies in Europe of his previous title on mushrooms, Roger Phillips' new book once again sets the benchmark. Quite simply, nobody with an interest in the subject can afford to be without this book.

'Roger Phillips has written the best mushroom book I know: the sublime taxonomic accuracy of his descriptions and photographs, combined with an evangelical and infectious passion for the subject, will make an instant mycophile of anyone who picks it up.' Hugh Fearnley-Whittingstall

'A masterpiece of identification.' David Bellamy
