Municipal and Corporation Bonds Terms, Customs and Usages: A Reference Book for the Investor, an Banker (Classic Reprint) Montgomery Rollins

Interest payable semi-annually. April and October. Bond. Used when securities are divided into classes, such as A bond, B bond. (See Preferred Stock.) A constant. See Auditor. Accrued Interest. One of the most common expressions in connection with investment dealings, and one very frequently not clearly understood. Let us take, for example, a \$1,000 bond bearing 4% interest, or, in other words, paying the holder \$40 yearly. The interest is payable January 1st and July 1st. each year; \$20 at each time. This interest will not be paid before it is due; that is, in the month of June the interest due July 1st cannot be collected; but, suppose Maria Jones had held the bond in her possession until the first of June, she would, therefore, be entitled to the interest upon her money at the rate of 4% annually from January 1st last, at which time she received the interest then due. Therefore, if Maria Jones wishes to sell this bond to Henry Drake at a price, say, of par and accrued interest. she would receive from him \$1,000 the principal sum of the bond and also the interest upon the \$1,000 from January 1st to June 1st. or five months, at the rate of 4% per annum. (Typographical errors above are due to OCR software and don't occur in the book.)
