The Chemist's Companion Guide to Patent Law Chris P. Miller, Mark J. Evans

Written by an individual with experience as both a chemist and a patent attorney, *The Chemist's Companion Guide to Patent Law* covers everything the student or working chemist needs to know about patentability, explaining important concepts of patent law (such as novelty, non-obviousness, and freedom-to-operate) in easy-to-understand terms. Through abundant examples from case law as well as real-world situations with which a researcher might be faced, this book provides readers with a better understanding of how to put that knowledge into practice.
